# When pressure hits, autopilot fails. Lead with a map.

Request Coaching

## Automatic patterns under pressure

Stress doesn't change who you are — it reveals how you operate.

EnneaRoles maps your predictable reactions under pressure, so coaching focuses on real behavior, not self-descriptions or intentions.

## From ego patterns to execution

We don't coach personality just for self-knowledge.

We coach how ego patterns enable or block execution, decision-making, and leadership impact — where results actually matter.

## Personality x role x context

Leadership effectiveness depends on fit: with your role, your team, and the organization's moment.

Coaching is grounded in how these forces interact — not in generic leadership ideals.

## Clarity you can act on

Each coaching engagement translates insight into **concrete moves** you can apply immediately — individually and with your team.

# No friction. Get coaching right away.

## Purchase Session

If you'd like to work with one of our Madanes Coaches, contact us at [info@madanesschool.com](mailto:info@madanesschool.com) to tell us about your context, goals, and challenges. We'll get back to you with next steps and session options.

## Schedule

Once we connect, we'll help you schedule individual or team coaching sessions at a cadence that fits your reality. No rigid programs. No forced timelines.

## Take Assessment

We'll invite you to complete the EnneaRoles assessment to map your ego patterns, functional roles, and organizational fit — so coaching starts with clarity, not assumptions.

“

*"Powerful tools for transformation."*

TONY ROBBINS, #1 NYT Best-selling author, "father of the coaching industry",  
recommended Madanes to his 2 million followers in X

”

*Good leaders know the importance of relationships to a healthy organization. EnneaRoles will raise your awareness as a leader. Knowing how each individual's unique personality type drives his or her behavior will improve the value of every interaction and relationship in your workplace. Every leader should keep this method nearby and refer to it often*
